#### Political Delegates

A state political convention is not a really important thing but it is one of the ways the control of the government stays in the hands of the people. Last week in Edray District seven Democrats attended the called meeting to elect six delegates and I presume the other districts had about the same attendance. Don't let opportunities of being a citizen of the United States pass by. The delegates will be printed elsewhere in the paper.

Home Demonstration Club The Seneca Trail Home Demonstration Club held their regular monthly meeting July 2 at the home of Mrs. Forrest Gibson.

An interesting lesson on Uganda and Kenya was led by Mrs. Ray Sage with members taking part in the discussion. Through this lesson we learned that Tanganyika, Uganda and Kenya are of particular interest to the people of West Virginia and plans are well underway to establish an Agricultural College at Morogoro, Tanganyika, and staff members of the College of Agriculture, Forestry and Home Economics of West Virginia University are teaching in the colleges of Uganda and Kenya of East Africa.

A demonstration on wild flower arrangement was given by Mrs. Forrest Gibson and exhibits of children's clothing were shown by Mrs. Norman Beale.

Plans were made for our picnic to be held in August and it was decided that we would go to Cass and have our picnic with Mrs. Clyde Galford, a member of our club, who has moved away, and take a ride on the Cass train.

Refreshments were served to seven members and eight visitors.

## 2 ways to get modern Electric Home Heating:

### BUILD A NEW HOUSE — MODERNIZE AN OLD ONE

More and more builders, buyers, and owners are changing to wonderful electric heat. At first electric heat was installed only in new homes. Now, with more technical knowledge and practical experience, many contractors are able to remodel homes that are decades old into homes that are the envy of the latecomers. Here is a list of the Approved Electric Heating Contractors doing work in the areas served by the Monongahela System. Call one or more of them for complete information on electric heating, or if none is in your community, phone the Power Company.
